

Walk 6 Waterways & Town

5.3 miles/8.5 km 2 hrs Easy to moderate

1 This walk starts under the Town Clock at the junction of Broad St, High St and Severn St, the area known locally as 'The Cross'. Walk along Broad St towards Longbridge until you reach the bridge and the old Flannel Exchange on your left. *This building is now a cinema and night club.* After the Flannel Exchange and before the bridge turn immediately left onto the tarmac footpath. This footpath looks over a lower footpath and the River Severn. Stay on this higher footpath until you reach the footbridge over the river to Dolerw Park, where you switch to the lower path. Continue on this path alongside the river.

2 Cross a small footbridge over a stream into the grassed area. Leave the path here and walk along the riverbank passing the new skate park and football pitches on your left. Continue following the river on grass, fenced walkways behind housing, informal paths and some tarmac paths. Take the right fork on the tarmac footpath at the Vaynor Park information board (SO 949908). After the path takes you through a second area of housing there are some steps which take you down to the river (SO 089909). Follow the river to the left alongside more football pitches. Look out for any of the paths that lead to the river. Some are easier than others. The last one is right at the end of the field past the pond. Follow the riverside until it reaches the Mochdre Brook which prevents you continuing upstream on the River Severn.

3 Turn left to find the path and pedestrian gate under the railway bridge. Do not follow the brook under the other bridge. Go through the pedestrian gate into the field.

Follow the hedge on the right until you come to another pedestrian gate. Go through and bear left towards the road. Go through another gate and cross the busy A489 road to Llanidloes and the west. Pick up the footpath to the right of the parking area and follow it with the brook on your right over stiles, gates and small footbridges, alongside a pipeline running above ground for a time until you come to a well signposted stile leading into a private garden. This is the right of way so go straight, passing a metal shed on your left, on through a gate next to another shed on your right and pass the house on your left. A stile then leads you out onto Mochdre Lane (SO 088899). Please use the stile so the dogs don't get out of the gate and onto the road.

4 Cross this road, turn right then take the steep side road immediately on your left, crossing under the bypass. A sign warns that there is a weight limit on this road. Go up to the first junction on your left. Take the left turn, up over a hill and then down a dip to another stream on the left.

5 Go through the next field gate (SO 091896) on your left after the stream and follow the gravel farm track ahead. After a while the track turns downhill and takes you under the bypass. Take the lower field gate on the right and follow this track uphill until you reach another field gate. Go through this gate, turn left and go through the pedestrian gate on your left onto the road in front of the buildings of Castell y Dail.

6 From Castell y Dail follow the road down into the start of the industrial estate. Turn right then immediately left on to the main road, Heol Ashley.

7 Take the first right (SO 095901) currently with Links Electrical Supplies Ltd. on your left and Unit 39 on your right Border Holdings on your right, but companies do change. The road ends at a tarmac

footpath. Ignore a turn off to the left and bear right (SO 098904) with a large grey industrial building with green trim on the right. Playing fields are to your left.

8 Go past the school playground on your left and immediately after the playground turn left off the pavement (SO 100903), through a wooden gate on to a path that takes you up into the wood. Follow the path through the wood, ignoring the occasional side paths. At the end of the wood, go straight across the field to a gap in the trees ahead.

9 Go down the steps, over two stiles and onto the road. Turn left and follow this road to the T junction. Turn right on to the bigger road, Plantation Lane. Follow this road until you reach the High School on your left. Take the pedestrian path between the school and the hedge. This turns left to lead you parallel to the A483 Dolfor Road.

10 Here the path runs alongside a final, surprising bit of running water where the stream from Blackhill and Dolfor is briefly allowed up to see the light of day in a concrete culvert before being submerged again in subterranean pipes. Go under the railway bridge, cross the A489 at the pedestrian crossing. Turn right then immediately left into Park St. Follow this past the library and the Castle Mound in the park on your left to the cross roads at New Church St. Turn left then cross the street, continue left then first right down High St to return to the clock.
